

Healing Partners

Cancer Supportive Care Program

Healing Partners provides FREE Healing Touch sessions to men and women diagnosed with cancer, regardless of where they are being treated, and at any stage of treatment or post treatment. Each participant is paired with a highly trained Healing Touch volunteer who provides these free sessions.

Healing Touch is a gently, non-invasive form of energy work that promotes deep relaxation, and reduces stress. Other benefits of Healing Touch include managing the side effects of chemotherapy and radiation including fatigue, nausea, loss of appetite, pain, and lymphedema. It also compliments other forms of cancer treatments.

Registration is required.

| | |
