

# Patient Memory Support Group

## Neuroscience Supportive Care Program

Do you have a diagnosis of Mild Cognitive Impairment or early-stage dementia and seek a supportive environment to connect with others who share similar experiences? This peer support group is facilitated by the Stanford Memory Support Program and meets monthly. The group provides a space for patients to connect with each other for support, problem-solving, and community.

**If interested, please call 650.736.7616 for more information prior to attending.**
