

The Speech Communication Group was created for individuals who have experienced a stroke or other neurological impairment. In a relaxed and informal setting, Stanford's highly skilled speech language pathologists facilitate the group and provide participants with the opportunity to practice speech, language, and cognitive skills, experience the camaraderie of those with similar challenges, take pleasure in the social aspect of group therapy and have fun. The group also organizes a variety of community outings.

Registration is required.

Dates: February 26 March 19; April 16; May 21; and June 18, 2018

Time: 3:30pm-5:00pm

Location: Stanford Hospital

300 Pasteur Drive, Neuroscience Conference Room H3150
