

**Radiation Oncology**  
Delineation of Privileges

**SAMPLE**

Required Qualifications	
<b>Education/Training</b>	<p>Successful completion of an ACGME accredited residency/fellowship in Radiation Oncology or foreign equivalent training.</p> <p style="text-align: center;"><b>AND</b></p> <p>Current certification or active participation in the examination process leading to certification in Radiation Oncology by the American Board of Radiology or foreign equivalent training/board.</p>
<b>Additional Credentialing Criteria (Initial and Reappointment)</b>	<p>In accordance with Hospital Sedation Policy and completion of the SHC sedation exam taken every 2 years</p> <p>LPCH - Sedation must complete additional privilege form</p> <p>Use of Fluoroscopy Equipment- Valid Radiology Supervisor and Operator Certificate or Fluoroscopy Supervisor and Operator Permit Required</p> <p>Teaching appointment to work in SHC and/or LPCH outpatient clinics</p>
<b>Clinical Experience (Initial)</b>	
<b>Interstitial brachytherapy (permanent or temporary implants).</b>	<p>Board certification or board eligible in Radiation Oncology or Therapeutic Radiology &amp; evidence of one of the following: • Cases performed during residency training (must submit log documentation showing involvement of at least 4 cases). • Documentation of equivalent interstitial brachytherapy experience documented in a letter from the service chief from a prior institution. • ACCME accredited 11 hours of lecture and observation of specialty brachytherapy training course within the last 2 years.</p>
<b>Intracranial Stereotactic radiotherapy radiosurgery (SRS)</b>	<p>Board certification or board eligible in Radiation Oncology or Therapeutic Radiology &amp; evidence of one of the following: • Cases performed during residency training (must submit log documentation showing involvement of at least 5 cases). • Documentation of equivalent intracranial stereotactic radiotherapy or radiosurgery experience documented in a letter from the service chief from a prior institution. • ACCME accredited 11 hours of lecture and observation of stereotactic radiotherapy or radiosurgery training course within the last 2 years.</p>
<b>Extracranial Stereotactic</b>	<p>Board certification or board eligible in Radiation Oncology or Therapeutic Radiology &amp; evidence of</p>

<b>Body Radiotherapy (SBRT) or Stereotactic Ablative Radiotherapy (SABR)</b>	one of the following: • Cases performed during residency training (must submit log documentation showing involvement of at least 5 cases). • Documentation of equivalent extracranial stereotactic radiotherapy or radiosurgery experience documented in a letter from the service chief from a prior institution. • ACCME accredited 11 hours of lecture and observation of stereotactic radiotherapy training course within the last 2 years.
<b>Intra-operative radiation therapy</b>	Board certification or board eligible in Radiation Oncology or Therapeutic Radiology & evidence of one of the followings: Six (6) cases during residency (must submit log documentation) If no training in residency or prior experience from another institution, provider required to observe 2 cases and be observed for 4 cases
<b>Radiosurgery for Functional Disorders</b>	• SRS privileges • Performed 200 SRS cases
<b>Clinical Experience (Reappointment)</b>	Minimum of 50 Core cases required during the past 2 years (Be prepared to provide a list of cases performed at facilities other than LPCH if requested) Minimum 2 cases required or In-service required every 2 years - Intra-operative radiation therapy Minimum 2 general SRS cases required - Radiosurgery for Functional Disorders 3 cases in past 2 years required for maintenance - Interstitial brachytherapy (permanent or temporary implants). Minimum 4 cases in past 2 years required - Extracranial Stereotactic Body Radiotherapy (SBRT) or Stereotactic Ablative Radiotherapy (SABR).
<b>FPPE Chart Reviews</b>	5 chart reviews - Core 2 Chart Reviews - Administration of SHC Moderate Sedation
<b>FPPE Observations</b>	Observe 1st case and be observed for 5 cases - Stereotactic radiotherapy radiosurgery (SRS); Observe 1st case and satisfactorily pass 3 proctored cases. Interstitial brachytherapy (permanent or temporary implants) For approval of all anatomic sites, must observe 1st case and satisfactorily pass 5 proctored cases (must have one for each of the following anatomic site: H&N, thoracic, abdominal/ pelvic, spine). Privileges may be granted for individual anatomic site by observing 1 case and satisfactorily passing 1 proctored case for the specific site. - Extracranial Stereotactic Body Radiotherapy (SBRT) or Stereotactic Ablative Radiotherapy (SABR). Previously trained required to observe the 1st case and be observed for 2 cases; No training in residency required to observe 2 cases and be observed for 4 cases - Intra-operative radiation therapy 2 observations of general SRS - Radiosurgery for Functional Disorders

## Core Privileges

Request		<i>Request all privileges listed below.</i>
SHC	LPCH	Click <b>shaded blue check box</b> to Request all privileges. Uncheck any privileges you do not want to request.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> - Currently granted privileges
<input type="checkbox"/>	<input type="checkbox"/>	Privileges to admit, evaluate, consult, perform history and physical exam, and provide treatment to patients utilizing the following modalities including:
<input type="checkbox"/>	<input type="checkbox"/>	Prescription and administration of oral or intravenous drugs and medicines related to cancer supportive care
		<b>Stanford Radiation Oncology Faculty only:</b>
<input type="checkbox"/>	<input type="checkbox"/>	External beam radiation
<input type="checkbox"/>	<input type="checkbox"/>	Unsealed radionuclide therapy
<input type="checkbox"/>	<input type="checkbox"/>	Intracavitary brachytherapy

## Special Privileges

Request		<i>Request all privileges listed below.</i>
SHC	LPCH	Click <b>shaded blue check box</b> to Request all privileges. Uncheck any privileges you do not want to request.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> - Currently granted privileges
<input type="checkbox"/>	<input type="checkbox"/>	Administration of SHC Moderate Sedation
<input type="checkbox"/>	<input type="checkbox"/>	Use of fluoroscopy equipment (or supervision of other staff using the equipment)
<input type="checkbox"/>	<input type="checkbox"/>	Treatment of patients in outpatient clinics at Stanford Hospital & Clinics
<input type="checkbox"/>	<input type="checkbox"/>	Permanent seed (sealed source) brachytherapy Interstitial brachytherapy (permanent or temporary implants).
<input type="checkbox"/>	<input type="checkbox"/>	Intracranial Stereotactic radiotherapy radiosurgery (SRS)
<input type="checkbox"/>	<input type="checkbox"/>	Extracranial Stereotactic Body Radiotherapy (SBRT) or Stereotactic Ablative Radiotherapy (SABR).
<input type="checkbox"/>	<input type="checkbox"/>	Intra-operative radiation therapy
<input type="checkbox"/>	<input type="checkbox"/>	Radiosurgery for Functional Disorders
