During this past year, SHC’s Shared Leadership Councils (SLC) have expanded to include the exceptional nursing and interprofessional leaders in Ambulatory care! Since the invigorating launch in December, 2019, the 11 service-line councils have exhibited transformational leadership by continuing to work virtually, despite the COVID-19 pandemic. During this unprecedented time, ambulatory care nurses and interprofessional colleagues have shown strength, flexibility, and grit while working under constantly changing guidelines to provide the highest quality of care and keep up with current evidence-based practices. The new and exciting organization-wide SLC structure unified SHC as a whole, allowing frontline staff to transform patient care throughout the continuum of one’s care path and allows SHC’s nurses to continue standing as a nation-wide leader in excellent patient care.

### Ambulatory Shared Leadership Council
